RE: Petition for Rule Making Seeking Changes in the  
Commission's FM Table of Allotments.

Dear Mr. Caton:

Transmitted herewith, on behalf of Kevin M. & Patricia W.  
Wodlinger, licensee of FM Station KRLK at Cassville, Missouri,  
is an original and four (4) copies of a "Petition for Rule Making  
and Request for Modification of Station License".

Should there be any questions regarding this matter, please  
do not hesitate to contact this office.

Sincerely,

William J. Pennington, III

FCC MAIL ROOM

**PETITION FOR RULE MAKING AND  
REQUEST FOR MODIFICATION OF STATION LICENSE**

Kevin M. & Patricia W. Wodlinger (hereinafter "Wodlinger"), licensee of FM Station KRLK at Cassville, Missouri, hereby petitions the Commission to institute a rule making proceeding seeking the reassignment of Channel 261 from Cassville, Missouri to Kimberling City, Missouri and upgrading the channel classification from Class A to Class C2, by changing the Table of Allotments as follows:

COMMUNITY	ALLOTMENTS	
	EXISTING	PROPOSED
Cassville, MO	261A	None
Kimberling City MO	None	261C2

In addition, it is requested that the Commission modify the license of FM Station KRLK to specify operation on Channel 261C2 at Kimberling City, Missouri. The instant petition meets all

the Commission's criteria outlined for a change in community of license. This proposed change in allotment will not deprive Cassville of its only local transmission service. The new allotment at Kimberling City will result in a net service benefit for the affected communities. See, Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License, 5 FCC Rcd 7094, 7097 68 RR 644, 650 (1990). In support whereof, the following is shown:

1. Attached as Exhibit E-1 is an FM channel spacing study which demonstrates that the proposed new allotment at Kimberling City is mutually exclusive with the existing allotment at Cassville. This study shows that but for the use of Channel 261A at Cassville, the proposed reassignment of Channel 261 could be made to Kimberling City, and the Commission's minimum channel spacing requirements could be met for that channel's allocation to the community as a Class C2 facility.

2. At present, there are no other FM stations assigned or licensed to Cassville. The Petitioner is the licensee of AM station KRMO at Monett, Missouri. On August 14, 1995 the Commission granted a construction permit changing Station KRMO(AM)'s community of license to Cassville, Missouri. This change in community of license can be effectuated without any technical changes to present operation of the station. The station presently places the required 5.0 mV/m service contour completely over the community of Cassville from its presently

authorized antenna site near the city of Monett. The Form 302 license application covering the construction permit is being filed simultaneously with this petition. A copy is attached hereto as Exhibit E-2.

2. Kimberling City has no AM Stations nor FM channel allotments. Kimberling City receives 1.0 mV/m service from 8 FM Stations. No gray or white area will be created by this proposed change in the Commission's Table of FM Allotments.

3. The application of the Commission's FM allotment priorities and policies to the communities of Cassville and Kimberling City demonstrates that the proposal will result in a preferential arrangement of allotments. See, Revision of FM Assignments, Policies and Procedures, 90 FCC 2d 88, 92 (1982). The proposed allocation of Channel 261C2 to Kimberling City would not provide (1) first aural service, or (2) second aural service; but would provide (3) first local service to Kimberling City. In addition, the Petitioner submits that evaluation of (4), other public interest matters, also results in a preferential arrangement of allotments. Revision of FM Assignments, supra.

4. Kimberling City, the county seat of Stone County, Missouri had a 1990 population of 1590 persons. Kimberling City is not located in or near any urbanized areas as determined by the United States Census Bureau. Stone County had a 1990 population of 19,078 persons. Monett has a 1990 population of 6,527 persons. Barry County, where Monett is located, has a 1990 population of 27,547 persons. At present, Stone County has **no**

local broadcast service.

5. All FM channel spacing requirements can be met for the allotment of Channel 261C2 to Kimberling City. Exhibit E-3 depicts the areas where a tower location can be found for the use of Channel 261C2 at Kimberling City. This area to locate is large enough to find a suitable tower site where the complete city of license could receive 70 dBu service.

6. Channel 261, if reassigned to Kimberling City, and upgraded in classification to Class C2, will serve three times as many persons within the station's proposed 60 dBu service contour than the station presently does as a Class A facility. Attached as Exhibit E-4 is a study which contrasts the number of persons and area within the station's present 60 dBu service contour with that which would be experience if reassigned to Kimberling City and allowed to upgrade to Class C2 classification. This significant difference in persons and area is relevant when evaluating public interest concerns involving a petition such as the one presented here.

7. Because Channel 261C2 would not be available to a third party for use at Kimberling City, the Petitioner's license may be modified to specify operation on the higher class channel pursuant to Section 1.420(g) of the Commission's Rules.

8. Should the Commission reassign Channel 261 to Kimberling City and allow for the upgrade of the channel's classification to Class C2 status, the Petitioner will immediately tender for filing with the Commission an application seeking operation with

the upgraded facilities from the new community of license. If granted a construction permit covering these facilities changes, the licensee will immediately construct the changes to the station.

9. In summary, the reassignment of Channel 261 from Cassville to Kimberling City, and the requested upgrading of the allotment to Class C2 classification, would allow the station to serve a significantly greater number of persons while allowing Kimberling City and Stone County to obtain a first local broadcast service. The reassignment of Channel 261 from Cassville to Kimberling City would not leave Cassville void of any local service. As set forth herein, the Petitioner, also the licensee of AM station KRMO at Monett, Missouri, has concurrently filed a Form 302 license application with the Commission to cover a construction permit which changes Station KRMO(AM)'s community of license to Cassville, Missouri. It is clear that the reassignment of Channel 261 from Cassville to Kimberling City meets all of the criteria set forth in Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License, 5 FCC Rcd 7094, 7097 68 RR 2d 644, 650 (1990) and is in the public interest and thus should be granted.

WHEREFORE, Kevin M. & Patricia W. Wodlinger, respectfully requests that the Commission, (i) reassign Channel 261 from Cassville, Missouri to Kimberling City, Missouri; (ii) upgrade Channel 261 to Class C2 classification, and; (iii) modify the

existing KRLK(FM) license to outline operation on Channel 262C2  
at Kimberling City, Missouri with Class C2 facilities.

Respectfully submitted,

**KEVIN M. & PATRICIA W. WODLINGER**

**OTHER ANTENNAS MOUNTED ON THE KRMO RADIATOR**

Station KKBL-FM, licensed to Monett, Missouri and owned by the KRMO(AM) licensee, has its four bay antenna side mounted on the KRMO(AM) radiator. The KKBL(FM) antenna is side mounted near the top of the radiator. The KKBL(FM) antenna uses an isocoupler to isolate the antenna from the KRMO(AM) radiator so that it is electrically "invisible" and does not allow for grounding of the KRMO(AM) radiator.
